

Cooking Companion Product Roadmap

For the Cooking Companion web app we will be continuing development in accordance with the roadmap below. There is a lot left to do before a full launch of version 1.0.0 however these goals are not unobtainable. The goal is that within three development phases we will be completed with what is laid out in this plan. P1 is what we are looking to accomplish within the scope of this class. After that point we have to assess if we are going to continue working on this project. If that is the case, P2 is what we would like to accomplish over the next 3 months. Lastly P3 will be handled in accordance with the development teams upcoming school schedules.

Project	Status	Related files	Notes
display the units of a specific ingredient (P1)	Completed ▾	recipe_page.html	c5
browse public recipes by title (P1)	Completed ▾	app.py DBAccess.py	s1
search recipes by title (P1)	Completed ▾	search.py query.html	s2
display the ingredients of my recipe (P1)	Completed ▾	recipe_page.html	c4
share recipes (P2)	Completed ▾	recipe_page.html	o1
filter my search for public recipes based on tools (P1)	In progress ▾	search.py query.html	s4
upload pictures of the dish (P1)	In progress ▾	recipe_page.html	c3
create a new recipe page (P1)	In progress ▾	recipe_page.html	c1
Test Classes (P1)	In progress ▾	db_access.py	TEST
Login to account (P1)	In progress ▾	login.html	a2
FrontEnd Development Setup (P1)	In progress ▾	home.html layout.html search_results.html login.html basic.css	FE1

Project	Status	Related files	Notes
BackEnd Development Setup (P1)	In progress ▾	app.py DBAccess.py search.py	BE1
tag recipe with its required ingredients so that it will show up in a search (P2)	In progress ▾	search.py query.html	c9
register an account (P1)	Not started ▾		a1
tag allergies to a recipe (P2)	Not started ▾		c8
